PRESIDENT WILSON HAILED IN ENGLAND AS THE GREATEST MAN IN THE WORLD TODAY

ESTIMATED THOUSAND WOMEN ARE ENROLLED TO VOTE IN PRIMARIES

From Wednesday's Daily Eagle
With only tomorrow and Friday in which to register, the women of the county are preparing themselves in increasing numbers to vote in the primaries to be held two weeks from Saturday. A total of 651 have registered with County Tax Collector McCulloch at the court house but no reports have been made to him by his special deputies who were appointed to register the women in the rural precincts. The indications are, however, that there are well over 1000 already enrolled and a rush is expected at the last minute. In other counties of the state reports indicate that there is a full registration. Those who have registered at the court house here up to noon today are as follows:

Precinct 2—Mrs. R. R. Shaw, Mrs. J. J. Jones, Mrs. J. A. Gandy, Mrs. Addie Todd Jones, Jossie Sebesta.

WEIHESE-SCHMER.

Reynold Weihe and Miss Ida Schmer were married at Kurten last Sunday in the presence of quite a large crowd of friends who assembled at the Lutheran church there to witness the ceremony. The marriage took place at 10 o'clock in the morning and Rev. Freiley officiated. Afterward the happy young people left for their new home near North Zulch, where the groom is a prosperous young farmer.

FIRST LOAD OF WHEAT.

The negro tenant on the Carl Cole farm brought to town Saturday afternoon what is perhaps the first load of threshed wheat ever seen on the streets of Bryan. It developed that a good many people did not know what wheat looked like and were surprised to find that it was red. There were 25 bushels in the load, which is only part of the yield from the five acres in wheat on the place and it was taken to the Lawler mill to be cleaned and ground into flour.

Cleared Minds of Men That Were Obscured by Blur of Battle, Said Mr. Asquith

(By the Associated Press)

London, July 11.—A dinner by five hundred prominent Englishmen to American officers resolved itself into an ovation for President Wilson. Former premier Asquith in a speech sincerely praised the president's leadership in the war and plans for a league of nations.

Vice Admiral Sims announced that the submarine menace is now ended as construction exceeds sinkings.

General Biddle revealed that Americans are in training at seventy or eighty points in England and Scotland.

Mr. Asquith said that probably the world owes a great debt to President Wilson for helping men to see beyond the blur battle has caused. Mr. Wilson has done more than any other statesman to concentrate the minds of the people on a league of nations as the allies' dominating war aim. We should realize that a league of nations is neither a vague political abstraction nor a theoretical formula but a definite and concrete ideal.

BRYAN IS TENDERED DISTRICT OFFICE OF U. S. LABOR BUREAU

Facilities of Commercial Club Tendered and County and City to be Asked to Assist in Financing It.

A district bureau of the employment bureau of the United States department of labor was tendered the citizens of Bryan this morning and tentatively accepted at a special meeting of directors of the Bryan and Brazos County Commercial association. E. A. Davidson, working under the direction of H. W. Lewis, federal director in Texas in this work, was present at the meeting and to him was tendered the facilities of the club, including an office and a stenographer, without additional expense and a committee, consisting of President Johnson, R. S. Webb, chairman of the finance committee, and E. J. Fountain, appointed to confer with city and county authorities relative to supplementing club funds with public money, as the work is a general public benefit.

Mr. Davidson said he had been sent to investigate the proposition of establishing an office here of the United States employment service, his instructions being to see City Manager Greer. He has been employed in this work in Houston and Galveston and in the Houston office in May 1900 men had been given employment. These district offices are being established all over the country, he naming some thing like a dozen of them in other small and large cities in Texas. The purpose is to do all that is possible to help win the war but the big labor of the bureau will come after the war in his personal opinion, and men will be reconstruction in large numbers. The fundamental idea of the bureau is to get the job and the man together and hence it is expected that this would be a permanent office and not merely a war undertaking. The office here would have principally to do with supplying farm labor, the proposition at the moment being with reference to importations from Mexico. One of the first undertakings would be to furnish labor for gathering crops. Special agents are on the

Shreveport, July 11.—Two soldiers were injured early this morning when a Vicksburg, Shreveport and Pacific train was wrecked near here. In serious condition are:

T. P. Houston, Caldwell, Texas.
Joseph Allen, Tatum, Texas.
Sergeant Tom Guernsey, Laredo, slightly hurt.

The soldiers comprised the 141st infantry of the Texas national guard. Four coaches of a troop train were overturned into a ditch between Houghton and Doyle, La., 171 miles from Shreveport, shortly after midnight.

border to look after the Mexican labor situation to provide labor for gathering the crops. The government furnishes the director and the furniture of the office but the town is expected to supply the stenographer. The work of the stenographer, he imagined, would be almost constant. Senator Astin read a letter from Mr. Lewis in which he stated that the district would include practically the old congressional district.

There was an extensive discussion of the subject, the directors feeling that, while it would be a very desirable acquisition to the town and attract many people here and serve as a valuable means of advertising, the financial condition of the club, with all the war activities to look after, would not justify the additional expense, but as the club expects to use the W. C. Davis offices in which his furniture and books are yet stored just as soon as they are vacated, Mr. Davidson could have one of those, use the club stenographer and employ special help when needed. Suggestions were made that other counties in the district might help defray this additional expense, that planters and farmers who are most concerned might join the club and subscribe sufficiently to take care of it, but not much encouragement was offered by the finance committee along those lines. About the only hope of assistance is from the commissioners' court as the representative of the agricultural interests as well as other interests in this section. There was a willingness to welcome the bureau and the only hurdle seemed to be that of finances. Accordingly the motion was made as stated and carried.

PEOPLE CARELESS IN MAKING AFFIDAVITS TO EXEMPTION BOARD

One thing that has impressed the members of the new exemption board is the rather careless freedom of many people in making affidavits. They do not assume that these people are intentionally dishonest but in their zeal to help a fellow traveler in this vale of tears and Huns they sometimes make statements under oath of things that have been told them rather than of facts they know themselves. The board has been giving much of its time since it was installed to a combing of them in deferred classifications and of perhaps 40 questionnaires examined perhaps 20 have been transferred to class 1. Some of these registrants are claimed dependents where there is no actual ground for dependency. A farmer boy, for illustration, 22 years of age, with a father, mother, brothers 10, 12, 16 and 18 years old and living on a farm of 100 acres, may have asserted and backed it up with affidavits of friends that his family is dependent upon him for support. It is patent that though the old folks might be unable to do physical work they could direct affairs and the boys could perform the labor. So the registrant is transferred to class 1. This hypothetical case may not be true but it illustrates the point.

Another thing that the public does not understand is that the local board has no jurisdiction in cases of claims for exemption on agricultural and industrial grounds, by far the greatest grounds for claims for deferred classification the local board finds. It is the district board at Houston that has sole discretion in these cases. To be exempted on industrial grounds a registrant must prove that the industry in which he is engaged is necessary to the conduct of the war and that he is necessary to the industry, that his services can not be dispensed with.

The local board has petitioned the county council of defense to call a meeting of the people of Brazos county at which the operations of the draft law could be explained, and some of the difficulties under which the board labors be made clear with a view to getting more co-operation from the people. Uncle Sam is going to demand a great many more men and that right soon, and he is going to call on the local boards to furnish them, hence a better understanding of the draft law and the needs of the nation is necessary to a close co-operation on the part of the people.

London, July 11.—That Rumania lost an opportunity to annihilate the German and Bulgarian armies in Dobrudja in 1917 is admitted by General Mackensen at the recent Rumanian peace parleys. Politicians at Bucharest recalled an attack by the Rumanians at a time when they had the advantage.

Mackensen declared the failure of the Rumanians to press their advantage changed the whole course of the war. He said his entire army could have been pocketed and compelled to surrender. Politicians who called Averescu, the Rumanian general, back timidly preferred a defensive policy to a daring offensive.

In September, 1916, Averescu had crossed the Danube into the enemy country with four divisions and found a clear way into the heart of the German-Bulgarian army. He had penetrated 15 miles with a view to cutting off all communications and striking them from the rear. Averescu's own position was safe, for behind him he had eight divisions of support troops.

Averescu neglected to cut the wires to his capital, however, and a peremptory order came for him to withdraw. He protested to no avail. Officials at Bucharest feared the Germany army on the other side of Rumania would break through and cause damage when Averescu was far away.

PAN-GERMAN VICTORY IN KUEHLMANN FALL

(By Associated Press)

London, July 11.—The fall of von Kuehlmann was arranged by German army headquarters and is regarded in Germany as the introduction of an open pan-German regime, says Holland dispatches. It is described as the biggest of a series of pan-German victories.

Expectation of the appointment of Admiral von Hinz as successor was accepted as final by the pan-Germans. They contend his appointment means a change of policy. This is denied and socialists threatened to deny the war credit because of him.

E. H. ASTIN ON PRICE FIXING COMMITTEE TO GO TO CONGRESS

E. H. Astin of Bryan as a planter and Howell E. Smith of McKinney as a banker are the Texas representatives on a committee that is to appear before a congressional committee shortly with reference to fixing a price for cotton and cotton goods. This committee was authorized by the conference held at New Orleans last week, which was attended by Mr. Astin and A. W. Wilkerson of Bryan, who returned Saturday. They say that nine states were represented, two of which voted against the price fixing resolutions, one of these being Georgia, which was represented by mill men and the other Louisiana, which is suspected of having been dominated by the New Orleans cotton exchange, which naturally dislikes to have any interference with the price fluctuations from which many of its members make their money.

The situation, as described by Mr. Wilkerson is largely one of ocean tonnage, a large holdover from last year and the production of a 15,000,000 bale crop this year. Owing to the shortage of tonnage a large quantity of cotton, bought for foreign account is still held in southern warehouses. It is estimated that the holdover is 4,000,000 bales. Mr. Astin states that it is his guess that there are 1,000,000 bales in the south, owned by foreigners who have bought and paid for it but can not get it moved. However, he says, there is improvement in the tonnage situation, he having been told at New Orleans that five per cent more tonnage has been made available for cotton movement recently and the situation is hopeful in view of the increased launchings in this country. Nevertheless the large holdover is still with us and a big crop is in prospect, a crop produced at a high cost. Mr. Astin says the state department of agriculture recently made an estimate that the cost of production in this state this year is 30 cents a pound. It is apparent, therefore, that both planters and bankers face a serious problem, when the market is left free to fluctuate sometimes several hundred points a day. Bankers can not figure on a stable basis for carrying the cotton especially as they are still carrying a large amount of the crop of last year.

Accordingly the conference was called at New Orleans to consider the situation. It was thoroughly discussed and a world of statistics presented, and finally resolutions were adopted wherein congress is called upon to authorize the president to fix a price for cotton and for the products of the mills. The resolutions call for the formation of a corporation, similar in organization and purpose to that of the grain corporation, granting authority to the president to buy cotton for government needs in the absence of other buyers at a price to be fixed by the president, and to fix the price for finished cotton goods on a basis of cost and a safe and reasonable profit. The resolutions also authorized the appointment of a committee, consisting of a planter and banker from each state represented at the conference, to go to Washington and present the situation and ask for legislation. President Woodson of the Texas State Bankers association is to arrange for the date of the meeting in Washington with the congressional committee, which has been tentatively fixed for Wednesday, July 17.

"The government would never have to buy a bale, in my opinion," said Mr. Astin.

Concerning mill profits, Mr. Astin says he was told in New Orleans that some of the mills are making as much as 40 cents a pound on a basis of 37-cent cotton. American mills are in a position to handle but 7,000,000 to 8,000,000 bales a year, out of a crop of 15,000,000. The Liverpool price is said to be around 70 cents a pound, which is considerably above a natural parity in the American markets.

ALLIES PREPARING TO MEET ANOTHER BIG GERMAN ATTACK

Washington, July 6.—General March said today, "The Italians have completely occupied the southern bank of the Piave river except for one small sector. The Italians are holding a nine-mile front."

General March said the allies are preparing on the western front to meet another heavy German assault. He said nothing further announcing American participation, except that the first million men had been dispatched and the movement of the second million is being prepared. The situation on the western front has developed into a continual nibbling by the allies with complete success obtained. The most important from the American standpoint was the attack on Vaux July 1.

PROHIBITION JAN. 1 AND STOP MAKING NOV. 1 PROPOSED

(By Associated Press)
Washington, July 8.—Legislation to prohibit the sale of wines, liquors and beer after Jan. 1 and prevent its manufacture after November, was agreed on by the senate agricultural committee today.

The legislation is proposed as a substitute for the Norris amendment which would stop the sale of liquors June 30, 1919. Provision for the exportation of liquors already made is being considered.

TWO HUNDRED SMITHS ALL IN ONE PARADE.

(By Associated Press)
Albion, Ill., July 9.—Two hundred Smiths, riding in vehicles typical of the five generations represented, recently celebrated the one hundredth anniversary of William Smith, who himself led the procession in a pioneer wagon with solid wooden wheels. He sat amid relics of 100 years ago.

After the centennial came the second generation riding in jolt wagons, and seated on split-bottom chairs. Then came the third generation in smart surreys and buggies, followed by the fourth in automobiles. The rear was brought up by youngsters in baby carriages.

At a picnic dinner that followed the aged Smith sat at the head of the table with a cake bearing 100 candles in front of him.

Smith was born in England and came to America when 17 years old.

DOWLING LANDED ON IRISH COAST FROM GERMAN SUBMARINE

(By Associated Press)
London, July 8.—Trial by court martial of Corporal Jos. Dowling, who landed on the Irish coast in a German collapsible submarine recently, has begun. Dowling is charged with joining a hostile force while a prisoner of war in Germany, tried to induce others to join and tried to land a hostile force in Ireland.

GIVES ITALY CREDIT

FOR SAVING THE ALLIES.

Philadelphia, July 9.—William Potter, former ambassador to Italy and now federal fuel administrator for Pennsylvania, says it is time to give the Italian nation credit for the great part she has played in the war.

"Just consider," said Mr. Potter, "what might have been the fate of the allies had Italy, with her army and navy, gone with the central powers. France at the outbreak of the war would have had to divide her army to protect her Italian frontier."

"The small but brave little British army would have been powerless to assist France both on the western and Italian fronts. Italy remained neutral until her weakened army was strengthened, cast her lot with the allies and helped to hold the Huns until America came into the war."

"Let the American people show their gratitude to Italy by placing everywhere the Italian flag among the Old Glory, the Union Jack, the Tri-Colour of France and the flag of brave little Belgium."

DRAFT RESISTORS KILLED IN FIGHT WITH CIVILIANS

Little Rock, July 8.—State and county officers, civilians and members of the Arkansas national guard machine company are still searching for a band of draft resisters near Hebor Springs, where three were killed in an encounter between the resisters and officers Sunday.

PIGS IN HAMMERSMITH.

London, July 8.—Hammersmith, one of London's suburbs, is going into the pig business. The Hammersmith food control committee proposes formation of a co-operative piggery and under present plans 1000 shares of stock will be issued. These will be disposed of at ten shillings a share. Each share will entitle the holder to the corresponding value of pork, bacon and other pork products, at cost price or to the corresponding profits on the investment.

Catarrah Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrah deafness, and that is by a constitutional remedy. Catarrah Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrah, which is an inflamed condition of the mucous surfaces. Hall's Catarrah Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrah Deafness that cannot be cured by Hall's Catarrah Medicine. Circulars free. All Druggists, etc.

Are the Packers Profiteers? Plain Facts About the Meat Business

The Federal Trade Commission in its recent report on war profits, stated that the five large meat packers have been profiteering and that they have a monopoly of the These conclusions, if fair and just, are matters of serious concern not only to those engaged in the meat packing market.

business but to every other citizen of our country. The figures given on profits are misleading and the statement that the packers have a monopoly is unsupported by the facts.

The packers mentioned in the report stand ready to prove their profits reasonable and necessary.

The meat business is one of the largest American industries. Any citizen who would familiarize himself with its details must be prepared for large totals.

The report states that the aggregate profits of four large packers were \$140,000,000 for the three war years.

This sum is compared with \$19,000,000 as the average annual profit for the three years before the war, making it appear that the war profit was \$121,000,000 greater than the pre-war profit.

This compares a three-year profit with a one-year profit ---a manifestly unfair method of comparison. It is not only misleading, but the Federal Trade Commission apparently has made a mistake in the figures themselves.

The aggregate three-year profit of \$140,000,000 was earned on sales of over four and a half billion dollars. It means about three cents on each dollar of sales---or a mere fraction of a cent per pound of product.

Packers' profits are a negligible factor in prices of live stock and meats. No other large business is conducted upon such small margins of profit.

Furthermore---and this is very important---only a small portion of this profit has been paid in dividends. The balance has been put back into the business. It had to be, as you realize when you consider the problems the packers have had to solve---and solve quickly---during these war years.

To conduct this business in war times, with higher costs and the necessity of paying two or three times the former prices for live stock, has required the use of two or three times the ordinary amount of working capital. The

additional profit makes only a fair return on this, and as has been stated, the larger portion of the profits earned has been used to finance huge stocks of goods and to provide additions and improvements made necessary by the enormous demands of our army and navy and the Allies.

If you are a business man you will appreciate the significance of these facts. If you are unacquainted with business, talk this matter over with some business acquaintance---with your banker, say---and ask him to compare profits of the packing industry with those of any other large industry at the present time.

No evidence is offered by the Federal Trade Commission in support of the statement that the large packers have a monopoly. The Commission's own report shows the large number and importance of other packers.

The packers mentioned in the statement stand ready to prove to any fair minded person that they are in keen competition with each other, and that they have no power to manipulate prices.

If this were not true they would not dare to make this positive statement.

Furthermore, government figures show that the five large packers mentioned in the report account for only about one-third of the meat business of the country.

They wish it were possible to interest you in the details of their business. Of how, for instance, they can sell dressed beef for less than the cost of the live animal, owing to utilization of by-products, and of the wonderful story of the methods of distribution throughout this broad land, as well as in other countries.

The five packers mentioned feel justified in co-operating with each other to the extent of together presenting this public statement.

They have been able to do a big job for your government in its time of need; they have met all war time demands promptly and completely and they are willing to trust their case to the fairness of the American people with the facts before them.

TWENTY-FIVE DEAD AS RESULT OF WRECK ON MEMPHIS RAILROAD

(By Associated Press)
Nashville, Tenn., July 9.—Twenty-five are believed to have been killed, fifty to seventy-five injured when passenger trains on the Nashville, Chattanooga and St. Louis collided near here.
Most of the dead are believed to be negroes. The entire crew of one train is reported killed. One train was en route to Memphis and the other from Memphis.
Later reports say the dead list may run to thirty-five and the injured, to seventy-five.

CHRISTIAN CHURCH HONORS J. J. RAY WHO DEPARTS TODAY

Officers and members of the First Christian church met at their house of worship last night to give J. J. Ray, who goes to San Antonio today to enter army Y. M. C. A. work, a farewell reception. They spent a very pleasant evening in social greetings, songs and appropriate short talks. The ladies served ice cream cones and the entire congregation, bystanding vote, unanimously adopted the following resolution:

Whereas, Our beloved brother, James J. Ray, has resigned as secretary of the official board of the First Christian church, Bryan, Texas, because of his acceptance of a position in the army service of the Y. M. C. A. and,

Whereas, He is soon to leave us to take up his new duties; therefore be it

Resolved, That we express our high appreciation of his services as secretary of the board, as an elder of the church, as a teacher in the Bible school, and as an honorable Christian gentleman. That we pledge him our love and prayers and any and all assistance we may be able to render his wife and children during his absence. That we wish for him the greatest possible usefulness in his new field of labor, and pray that he may return to us and his beloved family in perfect safety and the honors which we feel sure his new-found friends will gladly bestow upon him. That we are glad to remember in this connection, and to commend to Brother Ray the words of our savior found in Luke 18: 29, 30, "There is no man that hath left house, or wife, or brethren, or parent, or children, for the kingdom of God's sake, who shall not receive manifold more in this time, and in the world to come eternal life." That a copy of these resolutions be spread on our minutes and a copy presented to Brother Ray.

BRANDON TO ENLIST SUPPLY COMPANY MEN LATER IN THE WEEK

George Brandon has received advice from Adjutant General Harley that recruiting blanks are on the way from Washington for enlisting the members of the regimental supply company here. These blanks are expected in by the middle of the week when he will begin to sign up those accepted. None will be accepted of course who do not come up to the requirements of the army regulations. They must pass the physical examination, the physician to do which work has not yet been selected but General Harley has suggested that the physician of the local exemption board is the most acceptable man for the work, usually.

The supply company will consist of twenty-nine men, among whom are to be one saddler, 19 wagoners, one blacksmith and one cook, whose pay will be higher than that of the private in an infantry regiment. In fact, there are no \$30 men in the company. It is likely, according to the advice received by Mr. Brandon, that enlistments will also be accepted for other companies of this regiment, but no definite instructions to that effect have as yet been received. Recruiting headquarters for the present will be at the store of Brandon & Lawrence, but may be moved later. As only 29 men are required, it is expected that the quota will be filled quickly.

Those who may enlist must be between the ages of 18 and 45 years, not subject to the draft unless they are deferred classifications. They are to do border duty, duty in the colonial possessions of the United States or on the European battlefields, as may be designated. Boys over 17 and not yet 18 may enlist with the consent of their parents.

To speed up enlistments Mr. Brandon plans to have speakers in the picture shows and advertisements in the Daily and Weekly Eagle.

APPEAL TO WOMEN VOTERS TO REGISTER.

Women of Bryan and Brazos county, remember you have only three more days in which to register. The time is short. A crisis is at hand. Our boys at the front and in the camps are expecting their mothers and sisters and sweethearts to help fight the battles of democracy. While they direct their guns at the enemy they expect us to direct our ballots against the political corruptionists of our state. Will you women fail your boys now? If you do not vote and vote right our boys will return to a land despoiled and in the hands of our political enemies. We must all enlist and bravely battle as our boys are battling and dying for democracy.

Every true American is against kaiserism in the world. Every true Texan must help to down kaiserism in Texas. Surely, women, we must be up and doing. If you do not vote you may be suspected of being pro-German. "Procrastination is the thief of time." Just three days left! Go register right now!

ANSWERING DECHERD FACTS SHOW CHARGES ANTI-HARDY UNTRUE

Corsicana, Texas, July 3, 1918.

The Daily Sun, Gentlemen:
In your issue of recent date Mr. J. E. Decherd, Jr., of Franklin makes various statements in an article replying to a former article which appeared in your paper signed by some one as "Patriot."

These statements by Mr. Decherd are in the main misleading and false as the attached telegrams will show. Knowing this to be true I immediately upon reading Mr. Decherd's article wired Mr. A. S. Burleson, a member of the president's official family, and would be pleased to show the character of campaign our friend, Mr. Decherd, is engaged in.

Yours very truly,
W. M. PECK.
Corsicana, Texas, July 1, 1918.
A. S. Burleson, Postmaster General, Washington, D. C.

It is being charged that Representative Rufus Hardy has not supported the administration, and has not been in sympathy with the president's war policies. Is this true?

W. F. PECK.
Washington, D. C., July 2, 1918.
Mr. W. M. Peck, Corsicana, Texas.

Telegram received. Rufus Hardy was one of 15 representatives in congress who were for Governor Woodrow Wilson's nomination in 1912. He was one of the four Texas representatives who joined in an address to the Democrats of Texas, appealing to them to give Wilson their support. He has consistently supported the president in all his great domestic reform measures before the war, and since the war has earnestly supported him in all his war policies. He has been and continues to be very helpful in passing all bills looking to the winning of the war. Any statement to the contrary does Judge Hardy a great injustice and is not based on truth. You may make such use of this as you see fit.

BRAZOS WHEAT YIELD UP TO JULY FIRST

Report made to County Agent Beason of threshing done in the county shows that up to July 1 over 200 bushels of wheat had been threshed. T. N. Kirby leading with the greatest production, 86 bushels, and O. L. Wilcox following with the same figures but in reverse.

The wheat shows to be of good quality and the yield, considering the late planting, is fair.

The county agent says that Lawler Milling company will arrange to grind wheat if the farmers will arrange to plant it. A campaign will be put on this fall to induce farmers to plant a small acreage to wheat which will furnish good grazing for stock and at the same time make wheat sufficient to supply bread for the home. In the northern part of the county the wheat seems to have done well this year.

MRS. WILSON'S JULY 4 GREETING.

"The greeting which I am glad to send to the women of our beloved country, who are playing so large and so noble a part in this day of our supreme test, can have but a single thought for its theme—the thought that is in all our hearts. That thought is that we are sustaining, not a government, but the principle of our nation's life. The morale of the war is in the thoughts and aspirations and hopes of the women as well as of the men. They stand at the very center of every issue involved, as the men do, and in that sense the war is theirs. It is a war for what is humane and right. They put all that is best of them into the struggle. And they are doing so. I deeply admire them, and am proud to stand with them. A new glory attaches to the Fourth of July because we are striving to make the whole world free."

DINNER TO MR. WILKERSON.

The vestry of St. Andrew's church tendered a chicken dinner to the retiring treasurer, A. W. Wilkerson, at Fin Feather club last night at 8:30 o'clock. Not all the vestrymen could be present, being absent from the city, but the absentees were very few. As special guests there were Mr. Wilkerson's intimate business associates, men with whom he has worked during his residence of 15 years in the city and with whom he is now severing business relations to go to a larger field at San Antonio. These included E. H. Astin, John M. Lawrence, Ed Crenshaw, Jim Hare, Fred Cavitt and his successor as cashier of the City National bank, Houston Cole.

A most delicious and bountiful dinner was served under the generalship of Bob Harrison. Rev. H. B. Jamison presided and the affair was one of get together and goodby.

In view of Mr. Wilkerson's retirement from the vestry, Prof. J. N. Michie was elected to the vacancy, and Tom Lawrence was elected treasurer, at a recent meeting.

CLAYDON HAS MANY RELATIVES IN SERVICE.

Charles Claydon, of Normangee, who is visiting in this county, was in town this morning and called at the Eagle office with pictures of warriors from among his family. One of them is a grandson, Nugent R. Claydon, who went out with one of the contingents of drafted men from Bryan, and has been in France, where he is in truck service of the field artillery. He also has a niece, Mabel Claydon, in England, his native land, who sent him a picture of herself in overalls and jumpers, a fine, big girl now engaged in making munitions, and, as she writes, doing her bit. She also sent kodak pictures of her brother, who is doing wireless work in Egypt, and she has another brother in Palestine. She expresses the hope that the war will soon end, but is glad the United States is in it, with her wealth and population, but regrets we are so far away.

Mr. Claydon himself is an ex-soldier.

GO ON TRADE TRIP AND TAKE FRIENDS ALONG WITH YOU

Bryan merchants are urged to go on the trade trip Wednesday of next week and employ their cars if they own such, and see to it that those who have not cars shall have an opportunity to go. The matter was one of the leading topics discussed at the regular meeting this morning of the directors of the commercial club, and the chief point was made that not only is a big crowd of business men desired for the trip, but that every car shall be filled, and no half empty cars taken along.

Chairman Sam B. Wilson stated that the Eagle Printing company is turning out a nice piece of work in the big four-page circulars. Not all the addresses he expected have been secured, but the general distribution to take place Friday will make up the deficiency, he confidently expects. No canvass of those who may go has as yet been made, but he thinks there will be plenty of representation. The pastors of the city are to be invited, and speakers to make two-minute addresses where opportunity offers are to be selected. It was stated that several cars from College are going to advertise the farmers' short course and the farmers' congress.

Sanitation About Camps.

President Johnson brought up the subject of the move in the war department for sanitary conditions in the towns at army camps, and reported a conversation he had with Captain Funston, who stated that the army doctor in the camp is authorized to make an inspection of restaurants, soda fountains and barber shops patronized by soldiers, and to give them a card informing the public that they have been inspected and approved. Where this card does not appear soldiers are prohibited from entering, the officers even going so far as to post a guard at the entrance and keeping soldiers out. Mr. Johnson suggested that Bryan caterers in said lines ought to be advised that their places are to be inspected soon and urged to have them in shape and up to regulations. Accordingly, a committee, composed of Mr. Johnson, J. S. Doane and E. J. Jenkins was appointed to call on the Bryan people and advise them. The inspection is likely to take place some time this week.

Brazos Interurban.

H. C. Fulgham brought up the question of what the Bryan and Central Texas interurban company is going to do relative to handling the cotton crop from the bottoms this fall, whether minimum loads are to be insisted upon, or whether a farmer with 20 bales, as he illustrated, and nowhere to store it out of the weather, will have to wait until a carload of 60 bales can be made up. Upon motion the committee that handled the proposition last year was reappointed to take care of it this year—H. O. Boatright, John M. Lawrence and E. H. Astin.

Wilkerson Resigned.

A. W. Wilkerson stated that as this would be the last meeting he would be able to attend prior to his departure for San Antonio, he desired to tender his resignation as a member of the board of directors.

Upon motion of A. M. Waldrop the resignation was accepted with regret, and a committee appointed to draft suitable resolutions in view of the fact that Mr. Wilkerson has been active in progressive work during his entire residence in Bryan. Major L. L. McInnis, A. M. Waldrop and W. S. Barrow were named as this committee.

President Johnson stated that he thought he would have his affairs closed up within the next week or ten days, and would tender his resignation at the meeting next Tuesday, so he thought both vacancies could be filled at the same time.

Ice Supply Question.

Mr. Johnson of the special committee appointed to look into the ice supply and its continuity in Bryan, stated they had called on Manager George Stephan last Tuesday, who told them he had 60 new boiler flues on the way by express and two expert boiler makers engaged, so that he anticipated being shut down about 24 hours. To take care of the public meanwhile he had a car of ice shipped in and Mr. Boyett had a car, and as far as the committee had heard, there had been no complaint of ice shortage since.

Daily Prayer.

The special committee appointed to ask the county judge and the mayor to issue proclamations calling on the people to pause for a moment in the course of their business every day and utter a prayer for the success of our cause in the present war, and to formulate a brief prayer, reported that they had been unable to get together, and asked for further time. It was suggested that a resolution to this effect has passed the senate and is pending in the house of congress, and it might be advisable to wait, so that the whole country would be placed in a position to act together in the matter.

Mr. Eberstadt stated that complaints had been made to him about the sprinkling of streets and it was ruled that such complaints ought to be made to the city direct and if action is not forthcoming then it is time to bring the matter before the club. Secretary Eberstadt was authorized to sell an old typewriter and buy a new one.

GIVEN WAR MEASURES HARDY SUPPORT NOT DECHERD POINTS OUT

In a recent issue of the Corsicana Sun, one Mr. Peck, in an attempt to nullify the telling effect of my reply to "Mr. Patriot," publishes a telegram to Postmaster General Burleson, stating that I charged that Mr. Hardy has not supported the administration, and has not been in sympathy with the president's war policies. This is not my exact statement. I stated that Mr. Hardy had opposed the president's preparedness program almost up to the time of the declaration of war, but after the declaration of war he had supported the president and so had most of the Republicans in congress, and every loyal American, both in and out of congress.

Mr. Burleson, in reply to Mr. Peck's telegram, states that Mr. Hardy consistently supported the president in all of his great domestic reforms before the war. That is not the issue. I did not refer to domestic reforms. I stated that he did not support the most important war measures of the president before the declaration of war. The record will speak louder than Mr. Hardy or Mr. Burleson, and I here again submit the record so that you may judge for yourself who has stated the truth.

Army appropriation bill, of \$700,000 for airships, page 2281, Congressional Record, Mr. Hardy votes nay.

Fortifications appropriations bill of \$1,000,000, page 4961, Congressional Record, Mr. Hardy votes nay.

National defense, increasing our army to 250,000, page 8590, Congressional Record, Mr. Hardy votes nay.

National defense, page 8591, Congressional Record, providing for the raising of a volunteer army of 600 officers and men from each Congressional district. Mr. Hardy votes nay.

Naval appropriation bill, page 14705 Congressional Record, providing for eight capital battleships. Mr. Hardy votes nay.

Fortifications bill, page 2485, providing for an appropriation of approximately \$61,000,000, Mr. Hardy votes nay, Jan. 29, 1917.

Prohibition amendment, S. J. resolution 17, Dec. 17, 1917, providing for nationwide prohibition, Mr. Hardy votes nay.

Woman suffrage, submitting constitutional amendment, to the states providing for woman suffrage, Mr. Hardy votes nay.

In spite of the above votes which Mr. Hardy cast against the wishes of the people of this district he thinks he ought to be kept in congress to help Woodrow Wilson win the war. Judge Hardy not only opposed the president by voting against the various preparedness measures as indicated above but he went further in his opposition and returned to his district and made speeches against the president's preparedness program as every man conversant with the facts knows. If he did not oppose the president why were so many petitions and telegrams of protest against his stand on preparedness sent to him from his district?

Respectfully,
E. A. DECHERD, JR.

TEXAS CONTRACTOR ENDORSES TANLAC

Suffered Torture With Rheumatism—Gains Ten Pounds and Troubles Disappear.

Robert Schultze of 818 West Poplar street, San Antonio, Texas, who has been a resident of that city for more than 50 years, made a remarkable statement regarding his experience with Tanlac, recently.

"About two years ago, said Mr. Schultze, 'rheumatism got hold of me and I lost weight and all the energy I ever had seemed to leave me. I suffered torture with the rheumatism, especially in my shoulders and knee joints, and I couldn't work an hour without my shoulders giving completely out. I had become irritable and unstrung as a man can be and as nothing seemed to do me any good I had about gotten to the place where I didn't know which way to turn for relief.

"Finally, after seeing the fine results of Tanlac in the case of some of my relatives I began using it myself and I am entirely free from all pain and symptoms of the rheumatism and I'm glad to say my irritable, grouchy feelings are gone, too. I have gained all of ten pounds and this strikes me as being mighty fine for one of my age. I have as much energy and vim as I ever had and can work all day. Altogether I'm simply feeling fine and you may know if Tanlac hadn't done me good I wouldn't be talking for it. But it has done the work for me and I don't hesitate to recommend it."

Tanlac is sold in Bryan by N. A. Stewart, in Wellborn by J. P. Royder, in Edge by Moore & Payne, in Allen-farm by Terrell Brothers and in Tabor by J. K. Presnal. Adv.

The Strong Withstand the Heat of Summer Better Than the Weak

Old people who are feeble and younger people who are weak, will be strengthened and enabled to go through the depressing heat of summer by taking GROVE'S TASTELESS CHILL TONIC. TABOR IS EXPANDING SCHOOL FACILITIES IN MOST MODERN WAY

The people of Tabor community, who have acquired the habit of going "over the top" in war activities, have inaugurated another move indicative of the progressive spirit of the citizenship of that splendid community.

Notwithstanding the fact that the community has a good central high school building, it has been apparent for some time that the high school facilities were entirely inadequate to meet the needs of the ambitious boys and girls of the community.

Heretofore the high school has been taught by one teacher; now that the eleventh grade has been added necessitates at least another teacher. A teacher's home must be provided to accommodate the teacher and his family, trustees having this year to go beyond the draft age to find a principal. All these items indicate a wise expenditure of funds and to meet this emergency the commissioners' court has been asked to grant an election to permit the people to raise their tax rate to 50 cents, the constitutional limit, and the rate necessary to participate in state aid.

It is not expected at this time when our American boys and girls need every educational advantage possible to enable them to properly prepare for the stern and important duties that shall soon confront them in consequence of this world war that Tabor community will register a vote of opposition to a measure fraught with such interest, not only to the community at large but especially to the boys and girls who live there and who will continue to live there.

ALIEN PROPERTY CUSTODIAN. Brazos county has an alien enemy property custodian. Judge J. T. Maloney received a letter a day or so ago asking if he would accept the position for this county and he replied that as he was willing to help win the war in any way he could he would undertake the task. He is now in search of property owned by enemy aliens, such as might be seized. It is believed there is little, if any, in this county subject to seizure, but he is going to look into the matter thoroughly as soon as the commissioners court adjourns.

LEMON JUICE IS FRECKLE REMOVER

Girls! Make this cheap beauty lotion to clear and whiten Your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.—Adv.

This Corn Will Peel Right Off!

"Gets-It" Makes Corns Come Off The "Banana-Peel" Way!

Why have to flop on the floor, squeeze yourself up like the letter "Z", and with bulging eyes draw your face up into a wrinkly knot while you gouge and pull at the "quick" of a tender corn? That's

2 or 3 Drops Applied in a Few Seconds—There's no Fussing or Cutting. "Gets-It" Always Works! the old, savage way. "Gets-It" is the modern, painless, simple way. Lean over and put two drops of "Gets-It" on the corn, put your stocking and shoe right on again, and forget the corn. Pain is eased. "Gets-It" has revolutionized the treatment of corns. It never irritates the true skin. You'll stop limping on the side of your shoe, and do away with greasy salves, burning bandages, thick plasters and painful methods. Use "Gets-It". It's common sense. "Gets-It" is sold by all druggists (you need pay no more than 25 cents), or it will be sent direct by E. Lawrence & Co., Chicago, Ill.

Sold in Bryan and recommended as the world's best corn remedy by M. H. James, E. J. Jenkins.

CLUBHOUSE PLANS ORDERED PREPARED BY CLUB DIRECTORS

Plans and a site for the club house for the Bryan Country club and for financing the undertaking were ordered by the directors at a meeting last evening. The building committee of the club was instructed to have them ready for the next meeting of the board. The committee will take up the matter immediately and have its report ready within the week, it is expected.

It was decided to increase the membership by 25 at \$150 each. The directors, some time ago, it will be recalled, decided upon a maximum membership at \$100 each of 150. This has been reached.

T. J. McDonald of Madisonville has been employed as keeper of the club grounds and it was decided to build a house for him on the grounds, this in architectural keeping with the bath house that has already been completed. Lady members of the club are notified that they are each a chairman of a committee of one on planting and growing flowers and vines. The grounds are now ready for flowers, which with the irrigation system installed and the employment of a regular keeper, will have constant attention. The co-operation of the ladies is earnestly desired in this matter.

TABOR. Tabor, July 8.—The welfare club met Friday night. Several candidates were out from Bryan and were real busy electioneering among the ladies as well as the men. The ladies were given the privilege of registering at the club. The majority of them did so. The young folks enjoyed a watermelon party at Mr. and Mrs. Broach's Thursday night.

Miss Maybird Blanton from Harvey visited relatives in this community last week.

Miss Matiline Broach from Summerville has been visiting in this community.

Mrs. Paul Martin of Houston is visiting her father, Mr. Dean.

Miss Minnie McCallum left last week for Call, where she will spend the remainder of the summer with her mother.

Mrs. August Kern and daughter, Anita Ruth, of Hamilton are visiting friends and relatives here.

Miss Annie Metzger of Bryan visited Miss Mandell Hudspeth Sunday.

Robert Bond and his wife are home from Orange where he has been working in the shipyards.

Floyd Smith, Horace Spillers and others motored down to Orange last week.

One of the soldier boys, Mr. Bennett from the college, was out at Tabor high school Sunday afternoon, where Rev. Storey preached.

Mrs. Oscar Wilcox has gone to Galveston.

Mr. and Mrs. Will Payne of Kurten were in the city today.

Born to Mr. and Mrs. Morris Tatum, Thursday, July 11, 1918, an 8-pound son.

W. S. S. PLEDGES IN BRAZOS COUNTY OVER THE TOP BY \$64,669

Total pledges of war savings stamps were \$433,669, while the quota was \$379,000 in Brazos county, making us over the top \$64,669. There were 6575 names, which with the addresses, the amount previously purchased, the amount pledged June 28, with the total and the bank or other agency through which purchases are to be completed have been compiled on sheets with 47 names to the sheet. This was arranged in alphabetical order by school districts. There were 115 of these whole pages, 26 half pages and five fourth pages. The work was compiled and his assistants, Miss Jessie Kate Lyon, Miss Sammie Lyon and Miss Helene Talmage, and the originals sent to Louis Lipsitz, state director of war savings stamps at Dallas, and a copy is on file at the commercial club. Also the pledge cards.

"I am powerfully glad that this thing is over," said Secretary Eberstadt, "as it is the hardest job I ever tackled and has meant a great deal of hard labor, which has kept us at work night and day since June 28, besides attending to the regular commercial club work on the side."

WELLBORN. Wellborn, July 10.—The farmers are quite blue over the drouth in this section. It seems we have been unable to get rain for truck the past three years. Cotton, however, is not suffering so much.

Miss Vivian Royder left last night for Kountz to visit relatives.

E. Gandy has returned from Grimes county, where he has been for several weeks visiting Mr. and Mrs. J. P. White and where on last Sunday he celebrated his 73rd birthday with about 40 guests present. Barbecued pig and other good things were served at the noon hour.

Mr. Herrington of Millican visited his daughter here this week.

Maydell Hensarling and Ione Royder went to Hearne for a few days the past week.

Miss Grace McSwain is visiting in Houston.

The ladies seem very popular of late with the candidates from the letters they get.

Cards from Jesse Wade and Willie Dowling say they arrived safely in France.

Mrs. T. Fauquhar of Ennis is visiting relatives here.

Mrs. Mattie Eidson has returned from Abilene where she went to attend the funeral of her father, W. W. Johnson.

The health of our community is very good at present.

WOMEN TORTURED

Suffer terribly with corns because of high heels, but why care now?

Women wear high heels which buckle up their toes and they suffer terribly from corns. Women then proceed to trim these pests, seeking relief, but they hardly realize the terrible danger from infection, says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug store a quarter of an ounce of a drug called freezone. This is sufficient to remove every hard or soft corn or callus from one's feet. You simply apply a few drops directly upon the tender, aching corn or callus. The soreness is relieved at once and soon the entire corn or callus, root and all, lifts out without one particle of pain.

This freezone is a sticky substance which dries in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Tell your wife about this.—Adv.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dobson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dobson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dobson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dobson's Liver Tonic acts better than horrible calomel your money is waiting for you.—Adv.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

NEGRO DRAFT DODGER LOCATED AT WORTHAM

The local exemption board has caught up with another man who is classed on their books as a deserter. This morning Chief Clerk George Griffin received a letter from J. M. Livingston, deputy sheriff at Wortham, Texas, asking if Isaiah Martin was wanted by the board here. Isaiah is a negro who registered from Steel's Store and claimed then to have been born in 1888. According to Mr. Livingston's letter he now claims he is too old for the draft. The record in the office of the local board shows that he never appeared for physical examination and never responded to the call for first increment of negroes sent out of here last August. Had he responded to that call and been found physically qualified he would rightfully be in France by this time.

Mr. Griffin immediately wired Mr. Livingston to detain Martin and take him before the local board there for physical examination and to report the result. If he is all right physically he will be inducted into the army immediately. He is married but having apparently wilfully sought to dodge the draft he has automatically debarred himself from any claim for exemption.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the three and look for the signature of E. W. GROVE, Sec.

A CHILD GETS CROSS SICK AND FEVERISH WHEN CONSTIPATED

Look, Mother! If tongue is coated clean little liver and bowels.

If your little one's tongue is coated, it is a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep eat or act naturally; if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. Get the genuine made by "California Fig Syrup Company."—Adv.
